Summary

Backend Developer with 2 years of experience building scalable server-side systems and RESTful APIs.Proven expertise in Node.js, Laravel, and MySQL. Founded EaseMyBlogs, a content creation platform serving writers worldwide. Passionate about data structures, algorithms, software development and emerging AI technologies.

Technical Skills

Languages: C++, JavaScript,

Backend: Node.js, Express.js, Laravel, RESTful APIs

Frontend: HTML5, CSS3, Bootstrap, Responsive Design

Databases: MySQL

Core: Data Structures & Algorithms, Performance Optimization, API Integration

Professional Experience

Lead Backend Developer   January 2024 – Present
SAER Technologies Private Limited   *Jaipur, Rajasthan*
— Architected and deployed scalable server-side systems supporting high-traffic applications with optimized database schemas
— Reduced server response times by 40% through performance optimization and efficient caching strategies
— Built 15+ secure RESTful APIs with advanced authentication mechanisms (JWT, OAuth) ensuring data integrity
— Integrated third-party services (payment gateways, cloud storage, analytics) to enhance application functionality

Founder   February 2024 – Present
EaseMyBlogs   *Remote*
— Founded and launched EaseMyBlogs (easemyblogs.com), a content publishing platform for writers and creators
— Engineered full-stack web application using MERN stack, handling 1000+ registered users and growing community
— Designed scalable architecture with role-based access control, rich text editor, and social engagement features
— Implemented SEO optimization and analytics dashboard, increasing organic traffic by 200%
— Led end-to-end product development: ideation, design, development, deployment, and marketing strategy

Machine Learning Intern   June 2024
IBM   *Remote*
— Developed machine learning models for data classification and predictive analytics using Python and scikit-learn
— Gained hands-on experience with AI/ML workflows, model training, evaluation, and deployment strategies

Full Stack Developer Intern   June 2023 – July 2023
SAER Technologies Private Limited   *Jaipur, Rajasthan*
— Developed responsive user interfaces for payroll management system, improving user experience by 35%
— Collaborated with backend team to integrate APIs and ensure seamless data flow across system modules

Education

Bachelor of Technology in Computer Science   October 2021 – June 2025
Jaipur National University   *Jaipur, Rajasthan*
Higher Secondary School (Physics, Chemistry, Mathematics)   March 2019 – March 2020
Police Modern Secondary School, Agra, Uttar Pradesh   *Grade: 76.59%*

Featured Projects

EaseMyBlogs | *Laravel, MySQL, Bootstrap* | easemyblogs.com
— Built blogging platform with authentication, CRUD operations, and rich text editor for 1000+ users
— Optimized queries and caching achieving 2-second average page load time

Chatify | *MERN, WebSocket, Node.js* | GitHub
— Developed real-time messaging app with typing indicators, message history, and user presence features

Achievements & Certifications

- **HackerRank:** 5 star in C++ Programming, 3 star in Problem Solving – Top performer in algorithmic challenges
- **AI Certifications:** Getting Started with Artificial Intelligence, AI Fundamentals
