SUMMARY

Software developer with 2+ years of Laravel and PHP work on live SaaS products. Wrote close to 90% of the OneLedger backend, from the database schema to APIs, access control and reports. Most at home with database work: designing tables, adding the right indexes and fixing slow queries. Use Claude, ChatGPT and GitHub Copilot for everyday coding and debugging.

TECHNICAL SKILLS

Languages: PHP, JavaScript, Python, C++, SQL
Laravel & Backend: Laravel, MVC, Eloquent ORM, Migrations, Middleware, Blade, Artisan, Composer, Authentication, Role-based Access Control
APIs & HTTP: REST API Design, HTTP Requests and Status Codes, Webhooks, Third-party API Integration, Postman
Databases: MySQL, Schema Design, Normalization, Joins, Indexing, Query Optimization
Frontend: HTML5, CSS3, Bootstrap, JavaScript
AI Tools: Claude, ChatGPT, GitHub Copilot
Developer Tools: Git, GitHub, VS Code, Chrome DevTools
CS Fundamentals: Data Structures & Algorithms, Object-Oriented Programming, DBMS

EXPERIENCE

SAER Technologies Private Limited Jan 2024 – Oct 2026
Backend Developer (Laravel) *Jaipur, Rajasthan*

- Started as a backend intern in Jan 2024, became Junior Backend Developer in Jul 2024 and Backend Developer in Feb 2025.
- **OneLedger:** a SaaS product for jewellers and girvi (gold loan) businesses. Wrote close to 90% of its Laravel backend, including the MySQL schema, the REST APIs and the girvi, inventory, invoicing, transactions, reports and role-based access modules.
- **ServiceTasker:** worked on the Laravel backend of this lead-generation marketplace: lead workflows, the service-provider side and APIs. Also connected a Python service that imports Google reviews, and fixed issues in production.
- Built Laravel and MySQL modules for PureLocal, and for CRM, HRM, student management, invoicing and real-estate listing products.
- Spent a lot of time on the database side: adding indexes, restructuring tables and rewriting slow queries so pages and reports load faster.
- Handled login and permission flows, server-side validation, third-party API integrations and reports across several client applications.
- Used Claude, ChatGPT and GitHub Copilot day to day for writing code and tracking down bugs.

PROJECTS

Suite: WhatsApp Business Platform | Laravel, PHP, MySQL, WhatsApp Cloud API suite.autoflowmatrix.com

- A WhatsApp Business SaaS on the official Cloud API. Incoming messages arrive through webhooks into a shared team inbox, where chats can be assigned to agents, with internal notes and full conversation history.
- Also has template broadcast campaigns, no-code workflow automation, an AI chatbot, contact segments and analytics.

EaseMyBlogs | Laravel, PHP, MySQL easemyblogs.com

- A blogging platform with login, role-based content management and a relational MySQL database.

EDUCATION

Bachelor of Technology in Computer Science Oct 2021 – Jun 2025
Jaipur National University *Jaipur, Rajasthan*

ACHIEVEMENTS

- HackerRank: 5 stars in C++ and 3 stars in Problem Solving (www.hackerrank.com/profile/nitinkumarvasdh1).
- IBM SkillsBuild virtual internship on machine learning and chatbots.
